EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. Note: Claim 59 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 69-71, directed to the non-elected species are no longer withdrawn from consideration since all of the claims to these species depend from or otherwise include each of the limitations of an allowed generic claim (it being noted that applicant canceled claim 68 that did not depend upon or otherwise include all the limitations of an allowed generic claim as required by 37 CFR 1.141).

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

3. Note: Claims 59-67 and 69-74 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 75-87, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Claims 75-87 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. These claims are allowable for the reasons of record with respect to allowed product claims

Since all pending claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on 9-11-2003 is hereby withdrawn (subject to the above note with respect to the species requirement, it being noted that the allowed generic claim was not generic to all species - applicant however canceled claims that allowable claim 59 was not generic to).

Accordingly, the application has been amended as follows:

Art Unit: 1733

In the claims:

In line 1 of each of claims 69-71, "withdrawn" has been changed to --previously presented--.

In line 1 of each of claims 75 and 85, "withdrawn--" has been deleted.

In line 1 of each of claims 76-84, 86 and 87, "withdrawn" has been changed to --previously presented--.
